

# *The Launch of a Unique Global Law-Tech Initiative...*

# Infinity Law-Tech Educational Services LLP – India

A Unique Platform Integrating New Age Technologies with Policy  
Architecture & Regulatory Eco-system

Welcome to the Global Community of Law-Tech Experts...

**Prof. Dr.M.K.Bhandari**

**CEO – ILTES**

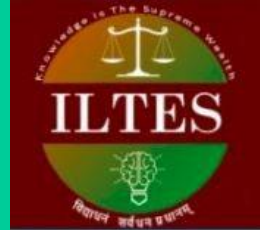

**Director—IOGA**

**Visiting Professor-NLU-Assam**

**Center Head -NICBLT**

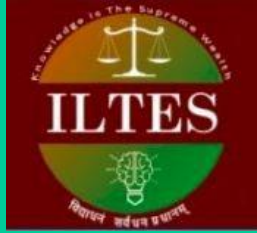

# ILTES –ABOUT US

- Infinity Law Tech Educational Services -ILTES is A Legal Corporate entity registered under Indian Corporate law, The Limited Liability Partnership Act.2008(LLP Act ,2008) at Hyderabad ,India.
- ILTES is a dedicated educational Service provider with focus on interface of emerging highly disruptive technologies ,such as Blockchain, Cryptocurrencies, Digital Assetes , Fintech, IoT, and Artificial Intelligence and their proper and effective legal regulation.
- The Promoters of ILTES are experienced pool of experts from Education, Law, Technology, Management ,Art and Literature and other related fields.
- The working paradigm of ILTES reflects in its innovative tools and techniques which are being constantly evolved and updated.

ILTES  
Online Global Academy

# OUR MISSION

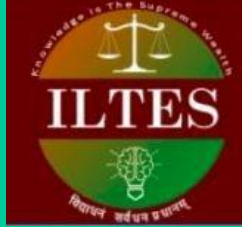

ILTES aims at furnishing and providing world class educational services and organizing national & international events and conferences for the better understanding and application of emerging Technologies and their legal Regulation.

## Our Vision

ILTES sincere endeavor is to recreate innovative Global Tools and Techniques towards harmonization of emerging technologies and their best application through robust Legal Framework.

# OUR CORE VALUES

ILTES believes in mission oriented team work for imparting and sharing highest global standards of Education and Trainings to our recipients in:-

- ❑ Conducive and innovative environment
- ❑ Interactive Learning
- ❑ Empowerment and Rejuvenation

# ILTES- SERVICES

- ❑ Legal Advice & Counseling
- ❑ Consulting & Research
- ❑ Online Courses
- ❑ Self-Paced Courses
- ❑ Corporate Courses
- ❑ Organization of Conferences, Seminars, Webinars, Symposia, Workshops.
- ❑ Expert Lectures, Interactive Talks
- ❑ Course Contents creation
- ❑ Publication of Books, Journals and News Letters Blogs
- ❑ Production of Audio -Visual literature such as Films, Videos, PPTs
- ❑ Establishment of ILTES Global Academy on Law and Technology Education and Research. (GALTER)
- ❑ Organization of Fairs, exhibitions and excursions

# EMERGING TECHNOLOGIES: SAFER APPLICATIONS AND EFFECTIVE REGULATIONS

- WORLD is witnessing emergence of newer and newer scientific researches and highly disruptive technologies every day. The speed and expanse of these technological adventures such as
  - Blockchain and Cryptocurrency,
  - Digital assets
  - Internet- of- Things-IoT
  - Fintech
  - Robotics
  - Artificial Intelligence –AIare deeply impacting economy, industry ,business banking, health care, currency management and inter-personal relations.

# BLOCKCHAIN(BC)

- The Blockchain is essentially a decentralized open public ledger which record all transactions on the network which each user can see and retain the copy of it.
- When a new transaction is initiated by a user, it is grouped with other transactions and these transaction groupings or blocks are periodically added to the ledger.
- There are many other safer and cost-effective uses of BC in the banking sector, recording of huge data and transferability of the data, maintenance of property records without risk of manipulation, IPR creation and management, gaming industry, entertainment industry and smart contracts.
- The issue that naturally emerges is how to regulate the BC in the existing legal framework and /or evolve new global standards and Protocols for safer use of BC.

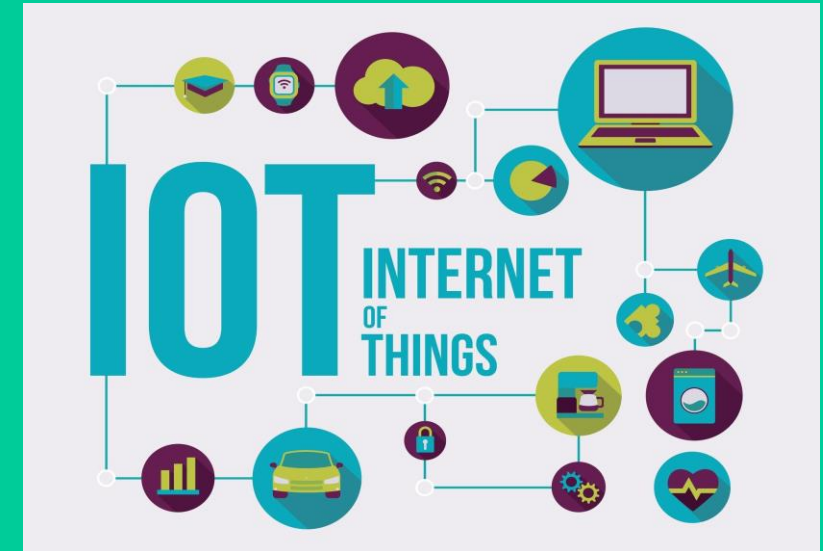

# FINTECH

- Fintech is a portmanteau of financial technology that describe an emerging financial service sector in 21 st Century.
- It applies to any innovative tool people use in digital mode for financial transactions. According to EYs " Fintech Adoption Index, one one third of consumers utilize at least one or two Fintech services as part of their daily lives."
- The Fintech canvass is ever expanding. Fintech startups received 17.4 US \$ billion in funding in 2016 and is going to surpass this figure in 2017-18 (Investopedia)
- USA, EU , Japan ,Singapore and Baharin are fast emerging as Fintech hubs of the world. India too can join the and exploit the fastest growing market of Fintech services.
- The world community has to evolve standard protocols and regulatory environment to prevent misuse of this challenging sector.

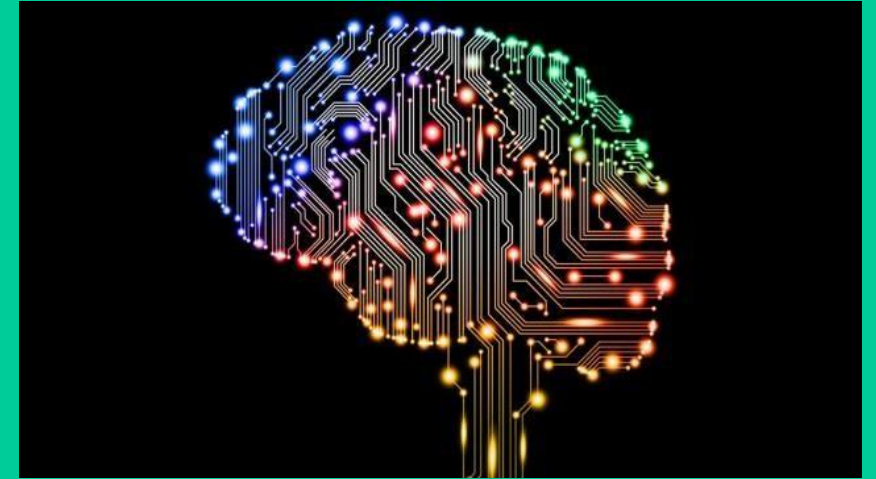

# INTERNET -OF- THINGS (IOT)

- Is heralding a new era in science and technology.
- IoT is poised to change dramatically our personal and professional lives, consumer habits and the way we do business.
- As per TACTs report, "IoT will become a norm by 2020 and we estimate more than 50 billion devices will be connected via internet"
- IoT is a network of physical objects or things embedded with electronics, software's sensors and network connectivity, with object to collect and exchange data.(International Institute for Analytics) Smart cities initiative, smart houses, driver less vehicles smart wearable, and drone services largely fall under IoT umbrella.

# ARTIFICIAL INTELLIGENCE-(AI)

- Artificial intelligence ,also known as Machine Intelligence - MI is intelligence demonstrated by machine, in contrast to Natural Intelligence-NI displayed by humans and other animals.
- Colloquially, the term AI is applied when a machine mimics cognitive functions that humans associate with other human minds: such as learning and problem solving.(Poole Mackworth and Goebel 1998: Russel and Norving,2009)
- Skype, Facebook & Whats App multiple services use AI .Robotics, Drones & Driver less vehicles are some recent Machines based on AI.
- But careless and unregulated use of AI is also fraught with risk of misuse. Therefore this advance technology also call for international standards and country specific regulatory mechanism.

Cryptocurrency started from Mahabharata times: Hon'ble Justice Mr. V. Ramasubramanian, High Court of Telangana and Andhra

International Conference on Blockchain Technology, Cryptocurrency and Digital Assets: Regulatory Framework

Prof. M.K. Bhandari opened the conference welcoming the Distinguished Guest Speakers and delegates attending the conference. In his opening speech Prof. Bhandari narrated the highlights and importance of knowing the Blockchain Technology, Cryptocurrency, Digital Assets and necessity to have a regulation in place to safe the applications from misuse.

The dignitaries on the dais released first issue of ILETES News letter which will be a monthly newsletter covering topics on Law and Technology. The inaugural session Mr. Rajendra Nimje (Director General – Centre for Good Governance), Hon'ble Ex. CJ of Sri Lanka, Mr. Mohan Pieris, Hon'ble Justice Mr. V. Ramasubramanian, High Court of Telangana and Andhra, Hon'ble Justice Dr. Kothari, High Court of Karnataka, Mr. Joerg Molt, Crypto Currency expert spoke their views, concerns, and suggestions about the Blockchain Technology, Cryptocurrency, Digital Assets and the required regulations.

Mr. Rajendra Nimje shared his view that we first of all there must be a mechanism and governance on how to handle the new technology in case of misuse and risks. Justice Dr. Kothari started his speech with a stone money story and how to money has evolved into a medium commercial transactions. He expressed his apprehensions and doubts about the ownership, fundamental rights as per constitution, trust and regulations in the use of crypto currency.

Justice Mohan Pieris discussed various complexities and emerging patterns in identifying the crypto currency quoting it as a "Mystical Currency" and left the audience with a question whether crypto currency has to be regulated or leave it free for usage.

Justice Mr. V. Ramasubramanian narrated a story from the time of Mahabharata during which already virtual markets and mystical medium for a commercial transactions were created but they disappeared as the way they suddenly appeared. He posed a question whether the crypto currency will also work the same way – appearing and disappearing suddenly. He also discussed four importance case laws from US jurisdiction in which all cases ruled for and against the recognition of bitcoin usage.

Mr. Jorge Molt very passionately and diligently explained that Bitcoin is not money it's a system which raises a value of the currency with every transaction. He explained how the Bitcoin transactions work and the ways how misuse, money laundering, corruption, manipulations can be eliminated if the technology is used properly with a proper regulation in place and in good faith where an owner the money enjoys the ownership and freedom while putting his money in use or carrying out the transactions. He reiterated that as long as people don't know how to regulate and use the money there will be a danger and more possibilities of misuse, fraud, money laundering, and potential risks in every transaction no matter whatever is the form of currency is used in such transaction.

# International Conference on Blockchain

(Hyderabad, Sept 29-30, 2018)

# Judge raises questions on use of blockchain tech in land records

AJAY MOSES @ Hyderabad

THE usage of blockchain technology in maintaining land records might prove difficult for the State if one has to go by the questions raised by Justice V Ramasubramaniam, judge of Telangana and Andhra Pradesh High Court.

After ambitious steps were taken up to purify land records and digitise for the purpose of maintaining online records through Dharani website-Integrated land records management system, the State has been mulling to use blockchain technology.

The goal was to create a trail of owners who had and would have possession of the title deed. However, even before the full-fledged website is ready to be operational, Justice Ramasubramaniam said there can be a problem with the record maintenance if the name of the area or locality changes in days to come.

"Take, for instance, the SP road. Now, it is known as SP road but in the coming years if the name is changed to some other name in memory of some leader. Where is the technology for this in Blockchain technology," Ramasubramaniam told Express.

He was speaking at a confer-

Justice Mohan Pieris and Justice V Ramasubramaniam | SATHYA KEERTHI

## 'Regulatory oversight required for tech'

Justice Mohan Pieris observed that, "A legal distinction should be drawn on cryptocurrency and a financial instrument. The entire concept requires regulatory oversight".

ence, here, on the regulatory use of cryptocurrencies. "In the blockchain technology, are you creating a new set of records? How do they merge with old records," he wondered. "The led-

er on which the technology will become immutable, how will you alter when such changes are to be made."

It may be noted that blockchain technology maintains a system of records in a ledger by using cryptocurrency and every time a new transaction is made it is added in a chain like distribution. But such distribution cannot be altered. Giving another example, the Judge stated there is another possible problem with usage of blockchain technology.

"If somebody is an owner of a huge property of 2,000 square yards. The owner dies and his children want to demolish and put up an apartment complex, it becomes a fragmented hole. How will you fit this fragmented hole in an immutable register," he pointed out. "A lot of these cases would come up," Ramasubramaniam said who has been in the High Court Judicature of Telangana and Andhra Pradesh for two years now.

"The land records do not tally, the description of the property in the original documents in the previous century and if it does not tally with the present, disputes arise," he added, concluding that blockchain technology will not be of much help.

## క్రిప్టో కరెన్సీకి సాధికారత అవసరం

రాయదుర్గం: ప్రపంచ దేశాలలో క్రిప్టో కరెన్సీ అమల్లోకి రావాలంటే, ఆ కరెన్సీకి సరళీకృతమైన విధానం, సాధికారత, జవాబుదారీతనం, భావసారూప్యత చాలా అవసరమని రాష్ట్ర హైకోర్టు న్యాయమూర్తి జస్టిస్ వి.రామసుబ్రహ్మణ్యన్ పేర్కొన్నారు. నానక్ రాంగూడ పైనాన్నియల్ డిస్ట్రిక్ట్ ప్రాంతంలోని కపిల్ టవర్స్ లో గల ఓక్ ఓడ్ హోటల్ లో 'క్రిప్టో కరెన్సీ, బ్లాక్ చైన్ టెక్నాలజీ, రెగ్యులేటరీ ఫ్రేంవర్క్' అనే అంశంపై శనివారం అంతర్జాతీయ సదస్సును నిర్వహించారు. ప్రధాన వక్తగా పాల్గొన్న జస్టిస్ రామసుబ్రహ్మణ్యన్ మాట్లాడుతూ... వర్చువల్ కరెన్సీకి భారతీయ పురాణాల్లోనే స్థానం ఉందన్నారు. శతాబ్దకాలంగా వర్చువల్ కరెన్సీ, క్రిప్టో కరెన్సీపై మేధోమథనం జరుగుతోందన్నారు. ఇప్పటి దాకా

సదస్సులో కరపత్రాన్ని ఆవిష్కరిస్తున్న వక్తలు

ప్రపంచ వ్యాప్తంగా పూర్తి స్థాయిలో క్రిప్టో కరెన్సీని వినియోగిస్తున్న దేశం లేదని చెప్పవచ్చన్నారు. శ్రీలంక సుప్రీంకోర్టు మాజీ న్యాయమూర్తి మోహన్ పెరీస్ మాట్లాడుతూ భారత దేశంలో క్రిప్టో కరెన్సీకి ఎలాంటి గుర్తింపు లేదన్నారు. ఇంఫినిటీ లాటిక్ ఎడ్యుకేషన్ సర్వీసెస్ సీఈఓ ఎం.కె. బండారి ప్రసంగించారు.

## క్రిప్టోకరెన్సీకి ఆద్యుడు ఘటోత్కచుడే

» ద్వారకరాయగంలోనే మేధోమథనం

» హైకోర్టు జడ్జి జస్టిస్ రామసుబ్రహ్మణ్యన్

రాయదుర్గం/హైదరాబాద్, సెప్టెంబరు 29 (ఆంధ్రజ్యోతి): ప్రపంచదేశాల మారకద్రవ్యానికి ప్రత్యామ్నాయంగా ఎదుగుతున్న క్రిప్టోకరెన్సీపై ద్వారకరాయగంలోనే మేధోమథనం జరిగిందని హైకోర్టు న్యాయమూర్తి జస్టిస్ రామసుబ్రహ్మణ్యన్ అన్నారు. క్రిప్టోకరెన్సీకి ఆద్యుడు ఘటోత్కచుడేనన్న విషయాన్ని ఇతిహాసాలు చెబుతున్నాయని గుర్తుచేశారు. నానకరామ్ గూడ ఐటీకారిడార్ లో ఇన్ ఫినిటీ లాటిక్ ఎడ్యుకేషనల్ సర్వీసెస్, ఎన్ ఎం సీసీఎస్ లు బ్లౌక్ చైన్ టెక్నాలజీ, క్రిప్టోకరెన్సీపై సంయుక్తంగా నిర్వహించిన అంతర్జాతీయ సదస్సులో ఆయన ముఖ్యఅతిథిగా పాల్గొని, ప్రసంగించారు. క్రిప్టోకరెన్సీని 80 దేశాలు వినియోగిస్తున్నా.. హార్మిస్టాయిలో వాడుకలోకి రాకపోవడం బాధాకరమన్నారు. 'సాంకేతిక విశేషాధికరణ'గా చెప్పుకొనే బ్లౌక్ చైన్ టెక్నాలజీని అనుసంధానించడం ద్వారా.. క్రిప్టోకరెన్సీని సరళీకృతం చేయవచ్చు. ఈ దిశలో కేంద్ర, రాష్ట్ర ప్రభుత్వాలు కసరత్తు చేయాల్సిన అవసరముంది. ఈ కరెన్సీని అమ

ల్లోకి తేవాలంటే.. దానికి నిర్దిష్టమైన సరళీకృత విధానాలు, చట్టబద్ధత, భావసారూప్యత, జవాబుదారీ అధికారం అవసరం' అని వివరించారు.

శ్రీలంక సుప్రీంకోర్టు మాజీ న్యాయమూర్తి మోహన్ పెరీస్ మాట్లాడుతూ.. మహాభారత కాలంలోనే టెక్నాలజీ అందుబాటులో ఉండేదని చెప్పారు. మాయాబజార్ లాంటి తెలుగు సినిమాల్లోనూ వాటి గురించి ప్రస్తావించినట్లు గుర్తుచేశారు. 'ప్రస్తుత క్రిప్టోకరెన్సీలో ప్రామిసర్, ప్రామిసీ, గ్యారెంటీలను సమన్వయం చేస్తే.. చట్టబద్ధంగా చలామణీలోకి తీసుకురావచ్చు. ఈ కరెన్సీని వినియోగించడం ద్వారా భారతదేశ ఆర్థిక వ్యవస్థను పటిష్టపర్చవచ్చు' అని పేర్కొన్నారు. కర్ణాటక హైకోర్టు న్యాయమూర్తి వినీత్ కొరారి మాట్లాడుతూ.. మూడున్న సాంకేతిక పరిజ్ఞానంతోపాటు.. చట్టాలను మార్చాల్సిన అవసరం ఉందన్నారు.

ब्लॉकचेन तकनीकी पर अंतराष्ट्रीय सम्मेलन आयोजित

हैदराबाद, 1 अक्टूबर (चन्द्रभान आर.)

ब्लॉकचेन तकनीक 'क्रिप्टोकॉरेंसी और डिजिटल एसेट्स' विषय पर एकदिवसीय अंतराष्ट्रीय सम्मेलन हाईटेक्स सिटी में आयोजित किया गया।

आज यहाँ जारी प्रेस विज्ञप्ति के अनुसार, सम्मेलन में सभी का स्वागत प्रो. एम.वे. भंडारी ने किया। उन्होंने कहा कि ब्लॉकचेन तकनीक का उपयोग कर दस्तावेजों को न केवल सुरक्षित रखा जा सकता है, बल्कि उसे अनुचित उपयोग से भी बचाया जा सकता है। उन्होंने क्रिप्टोकॉरेंसी, डिजिटल एसेट्स के बारे में जानकारी दी।

सेंटर फॉर गुड गवर्नेंस के महानिदेशक राजेन्द्र निमजे ने कहा कि दस्तावेजों के दुरुपयोग और

जोखिम के मामले में पहले नई तकनीकी को समझने के बाद ही इस पर आगे कदम बढ़ाने की आवश्यकता है।

कर्नाटक उच्च न्यायालय के न्यायमूर्ति डॉ. कोठारी ने पाशाण युग में धन की कहानी का उल्लेख करते हुए कहा कि पाशाण युग में पत्थर को धन के रूप में उपयोग किया जाता था। समय के साथ वाणिज्यिक लेन-देन का माध्यम पैसा बना। इससे पैसा विकसित हुआ। उन्होंने क्रिप्टो मुद्रा के उपयोग में संविधान, विश्वास और विनियमों के अनुसार स्वामित्व, मौलिक अधिकारों के बारे में अपनी आशंका और संदेह व्यक्त किया।

श्रीलंका के मुख्य न्यायाधीश मोहन पियरीस ने क्रिप्टो मुद्रा को रहस्यमय मुद्रा का रूप बताते हुए

विभिन्न जटिलताओं और उभरती प्रणाली के बारे में जानकारी दी। उन्होंने प्रश्न किया कि क्या क्रिप्टो मुद्रा को विनियमित किया जाना चाहिए या इसे उपयोग के लिए मुक्त छोड़ देना चाहिए।

तेलंगाना और आंध्र-प्रदेश उच्च न्यायालय के न्यायमूर्ति बी. रामसुब्रह्मण्यम ने महाभारत के समय की एक कहानी सुनाते हुए कहा कि वाणिज्यिक लेन-देन के लिए पहले ही आभासी बाजार और रहस्यमय माध्यम बनाये गये थे। लेकिन अचानक ही लेन-देन के प्रकट होने के तरीके गायब हो गये। उन्होंने प्रश्न किया कि क्रिप्टो मुद्रा भी वही काम करेगी, अचानक प्रकट और गायब हो रही है। उन्होंने अमेरिकी क्षेत्राधिकार से चार महत्वपूर्ण मामले की कानूनों पर

भी चर्चा की, जिसमें सभी मामलों ने बिटकॉइन के उपयोग की मान्यता और उसके खिलाफ तर्क दिये गये थे।

अवसर पर क्रिप्टो मुद्रा विशेषज्ञ ने कहा कि बिटकॉइन पैसा नहीं है, यह एक प्रणाली है, जो प्रत्येक लेन-देन के साथ मुद्रा का मूल्य बढ़ाती है। उन्होंने बिटकॉइन की लेन-देन प्रक्रिया की जानकारी देते हुए कहा कि इसका उपयोग कर मनी लॉन्ड्रिंग, भ्रष्टाचार आदि को समाप्त किया जा सकता है। उन्होंने तकनीकी के उचित विनियमन के साथ उचित तरीके से उपयोग करने की बात पर बल दिया।

## EDITORIAL

Increasing application of new age disruptive technologies such as Blockchain, creation and transaction in Cryptocurrencies, IoT, Fintech and AI necessitated evolution of global standards, model laws, national policy and legislation for safer and effective use.

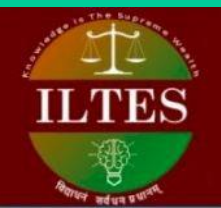

Recently, Prime Minister of India, Narendra Modi, while inaugurating World Congress of Technology(WCIT) at Hyderabad, India emphasised the need for proper use of emerging technologies, especially Blockchain and AI for the benefit of society. The experts from global community converged their ideas at Hyderabad so as to meet the challenges of these disruptive technologies.

Interestingly, Andhra Pradesh (Vizag - Visakhapatnam) and Telangana (Hyderabad) are emerging as global hubs for promotion of these technologies. Launch of ILTES at Hyderabad in February 2018 augurs well and offer an opportunity to create an environment and ecosystem for interdisciplinary studies and research on Law and Technology.

ILTES has already started organizing special expert lectures, symposia, workshops and refresher courses at various institutions and universities. The forthcoming International Conference on 'Regulatory Framework on Blockchain, Cryptocurrency and Digital Assets' is a gateway to bring experts from the domain of Law and Technology Financial Management and Governance on common platform .

I invite you all to assemble at Hyderabad on September 29-30, 2018.

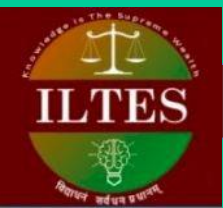

**Prof. Dr. M.K. Bhandari**  
**Chief Editor & CEO, ILTES**
